

Work until all of the Work is complete. Following Construction Contractor's request Owner, acting in its sole and absolute discretion and under no obligation, contractual or otherwise to do so, may approve (i) the payment of all retainage owed to any subcontractor following final completion of such subcontractor's Work and presentation of a final lien waiver from such subcontractor and (ii) reduce Retainage from 10% to any lesser percent of the Contract Sum following substantial completion of the Work.

8.06 When Construction Contractor considers that the Work has reached the point of substantial completion, Construction Contractor shall prepare for submission to Owner a preliminary list of uncompleted items of the Work ("Punch List Items") (a) which do not interfere with the use and occupancy of any area of the Site for its intended purpose and (b) which as a group are capable of being completed by Construction Contractor within 30 days of issuance of any Punch List (the "Punch List" is the list containing the Punch List Items). Substantial completion shall include the following: (i) all systems relating to the Work shall have been fully commissioned, in accordance with industry standards and standards set forth in the Contract Documents for documenting and verifying the operation and performance of such systems in conformity with the design intent, (ii) all improvements included in the Work shall be ready for occupancy for their intended purposes, and (iii) a certificate of occupancy, as required, shall have been duly issued by the applicable governmental authorities. Owner shall have the right to add items to the preliminary Punch List submitted by Construction Contractor based upon Owner's inspection of the Work. Such revised Punch List, when approved along with Owner's determination of substantial completion, shall be the Punch List which must be completed by Construction Contractor by the date for final completion. The failure to include any items on such list does not alter the responsibility of Construction Contractor to complete all Work in accordance with the Contract Documents. When Owner, on the basis of an inspection, determines that the Work has reached the point of substantial completion, Owner will then prepare a Certificate of Substantial Completion which shall establish the date of substantial completion and shall state the responsibilities of Owner and Construction Contractor for security, maintenance, heat, utilities and damage to the Work, and, except as otherwise provided, insurance and warranties required by the Contract Documents shall commence on the date of substantial completion of the Work. The Certificate of Substantial Completion shall be in the form of Schedule 8.06 hereto and shall be submitted to Construction Contractor for Owner's and Construction Contractor's written acceptance of the responsibilities assigned to them therein. Upon substantial completion of the Work and upon application by Construction Contractor and execution of a Certificate of Substantial Completion by Owner, Owner shall make payment for such Work or portion thereof, as provided elsewhere in the Contract Documents.

8.07 Upon receipt of written notice that the Work is ready for final inspection (and all Punch List Items have been rectified) and upon receipt of an acceptance of a final application for payment, Owner, or its designee, will promptly make such final inspection and when it finds the Work acceptable under the Contract Documents, it will promptly approve the final application for payment and issue the final payment, accompanied by a statement that the Work has been completed in accordance with the terms and conditions of the Contract Documents.

8.08 The final payment shall not become due until Construction Contractor submits to Owner (a) an affidavit that all payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which Owner or its property might in any way be responsible have been paid or otherwise satisfied; (b) consent of surety, if any, to final payment; (c) if required by Owner, other data establishing payment or satisfaction of all such obligations, such as receipts, releases and waivers of all possible liens arising out of the Contract Documents, Construction Contractor's and subcontractors' affidavits, to the extent and in such form as may be designated by Owner; and (d) as-built drawings, operations and maintenance data, warranties, and such other data as may be required by the Contract Documents. The acceptance of final payment by Construction Contractor shall constitute a waiver of all claims by Construction Contractor against Owner, except those previously made and specifically reaffirmed in writing with Construction Contractor's application for final payment and still unsettled.

8.09 (a) Construction Contractor warrants that title to all Work, materials and equipment covered by an application for payment will pass to Owner either by incorporation in the Project or upon the receipt of payment by Construction Contractor, whichever occurs first, free and clear of all liens, claims, security interests or encumbrances ("Liens"). However, Construction Contractor shall remain responsible for the care and custody of such materials, equipment, and Work until such time as Owner accepts (in writing) such responsibility. Construction Contractor further warrants that no Work, materials or equipment covered by an application for payment will have been acquired by Construction Contractor, or by any other person performing Work at the Site of

furnishing materials and equipment for the Project, subject to an agreement under which an interest therein or an encumbrance thereon is retained by the seller or otherwise imposed by Construction Contractor or such person.

(b) In the event that a lien is filed of record as a claim against the Site, the Building, or other improvement on or around the Site or against any monies due or to become due for any Work performed, or any materials furnished for the Work, then in addition to any other right or remedy Owner has under the Contract Documents or at law or equity and unless such lien is the result of Owner's failure to pay Construction Contractor amounts due under the Contract for Work and concerning which there is no dispute, Owner may withhold from Construction Contractor a reasonable amount until said claim or lien has been discharged or there has been furnished to Owner security satisfactory to Owner such that Owner will be protected and held harmless from any liability, fees or costs in connection therewith. In addition, if Construction Contractor fails to remove any such lien by payment or release or to furnish to Owner such satisfactory security, within ten (10) days after written demand, such failure shall constitute a default hereunder. Without limitation of Owner's other rights and remedies, if such a default occurs, Owner may, but shall not be obligated to, procure a bond or other security reasonably calculated to protect Owner from any liability in connection with such default and Owner may back-charge Construction Contractor for all costs and expenses incurred in connection therewith.

## ARTICLE 9 PROTECTION OF PERSONS AND PROPERTY

9.01 Construction Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. Construction Contractor shall designate a responsible member of its organization at the Site, which person shall be approved by Owner in writing, whose duty shall be the promotion of safety and prevention of accidents, and who shall be responsible for enforcing all Government Requirements, and rules, regulations and orders of Owner pertaining thereto. This person shall be Construction Contractor's superintendent unless otherwise designated by Construction Contractor in writing to Owner.

9.02 Construction Contractor shall take all reasonable precautions for the safety of and provide all reasonable protection to prevent damage, injury or loss to all of its employees at the Site and all other persons who may be affected thereby, and all property at the Site or otherwise used in connection with the Work. Such safety and security precautions shall be designed to take into account all risks associated with the location of the Site and may include, to the extent reasonably necessary or appropriate to provide adequate protection, fences and security guards or watchmen. Construction Contractor shall remove, within 24 hours of the discovery thereof, or any graffiti placed on the Site or any improvements, fences or barricades. Construction Contractor shall not use in connection with the Work or store at or near the Site any explosives. Construction Contractor shall permit no open burning on the Site. Construction Contractor shall provide a fire watch during all open flame activities. There shall be a second person equipped with not less than a ten (10) pound dry chemical or two and one half (2-1/2) gallon water fire extinguisher; in computer areas, not less than a nine (9) pound halon fire extinguisher shall be provided. Construction Contractor shall provide Owner and Building Owner/Manager, if different from Owner, adequate notice of any smoke or significant noise-producing operations. These operations shall be restricted from normal hours unless approved in writing by Owner and Building Owner/Manager, if different from Owner. Without limitation of Construction Contractor's obligations, Owner may provide watchmen if Owner deems it necessary for the proper protection of the Work and Site; however, Owner shall not be liable for any acts or omissions of said watchmen.

9.03 Construction Contractor shall promptly report in writing to Owner all accidents whatsoever arising out of the performance of the Work, whether on or off the Site, which cause death, personal injury or property damage, giving full details and statements of witnesses. If death or serious injuries or serious damages are caused, the accident shall be reported to Owner immediately by telephone or messenger, which report shall be followed as promptly as practicable by notice in writing to Owner. Any additional compensation or extension of time claimed by Construction Contractor on account of emergency work shall be determined as provided in Article 10 for Changes in Work; provided, however, that Construction Contractor shall not be entitled to additional compensation or additional time to the extent that the foregoing is due to the act or omission of Construction Contractor or a person or entity for which Construction Contractor is responsible.

9.04 Construction Contractor shall permit only previously authorized personnel on the Site. At any time and from time to time Owner may elect to initiate security procedures that prohibit access to the Site (or

portions thereof designated by Owner) except by persons specifically registered with Owner, in which event the following provisions as directed by Owner shall apply: (i) Construction Contractor shall, prior to the commencement of the Work, submit to Owner's Project Manager the names of all personnel either directly employed by Construction Contractor or in the employ of any subcontractor who will be present on the Site; (ii) all construction personnel will be required to register with Owner's security force and/or personnel and wear badges as furnished by Owner; (iii) Owner shall not be required to furnish any construction personnel or anyone else associated with Construction Contractor with such badges unless and until Construction Contractor has delivered to Owner the certificates of insurance required by Schedule A to these General Conditions to Single Project Construction Services Agreement; (iv) at Owner's election, personnel not displaying badge identification will be removed from the Site until properly registered and/or wearing badges; (v) all badges shall be maintained and controlled by Construction Contractor and shall be returned to Owner upon completion of the Work; and (vi) if additional or special personnel shall be needed for the efficient completion of the Work, then Construction Contractor shall submit a list of names of all such personnel at least 48 hours prior to their appearance on the Site.

#### ARTICLE 10 CHANGES IN THE WORK

10.01 Contract Sum and the contract time including the Project Schedule may be changed only by change order signed by or on behalf of Owner and Construction Contractor.

10.02 Owner, without invalidating the Contract, may order changes in the Work consisting of additions, deletions or other revisions, and the Contract Sum and the contract time shall be adjusted by agreement between Owner and Construction Contractor. All such changes in the Work shall be authorized by change order in the form of Schedule 10.02 hereto and shall be performed under the applicable conditions of the Contract Documents. Any Work expressly included in the plans and specifications shall be performed by Construction Contractor at no extra cost to Owner, notwithstanding any order from Owner to Construction Contractor which might contemplate such Work as an extra.

10.03 The cost or credit to Owner resulting from a change in the Work shall be determined in one or more of the following ways:

##### 10.03.01 Lump Sum Method.

(a) Compensation for additional work: Within fourteen (14) days after receipt of a bulletin for changes in the work requested of Construction Contractor by Owner, and not covered by agreed upon "unit prices", Construction Contractor shall submit to Owner's Project Manager for Owner's approval an itemized lump-sum proposal stating the amount to be added to or deducted from the Contract Sum by cost code, and the effect, if any, on the Completion Schedule by reason of such changes. The lump-sum price for additional or deleted work not covered by "unit prices" shall be determined as follows:

(i) For additional work to be performed by the subcontractors, a lump-sum itemized price to show the net amount of each subcontractor's direct costs for labor, materials, equipment rental, and transportation, plus the percentage fee thereof stipulated herein to cover all other charges, for or in connection with such work of Construction Contractor and subcontractors. The percentage fee(s) include all charges for layout, supervision (field and home office), small tools and related items, general expenses, general conditions items, fees, overhead and profit of Construction Contractor and subcontractors. Construction Contractor understands that the net amount of the subcontractors' direct costs for labor, materials, equipment rental and transportation above stated shall not include any markup by subcontractors for layout, supervision (field and home office), small tools and related items, general expenses, overhead and profit, and other related items, nor any markup for the costs of product and/or equipment purchased directly by Owner and furnished to subcontractor.

(ii) For additional work to be performed by Construction Contractor's own forces, a lump-sum itemized price to show the net amount of Construction Contractor's direct costs for labor, materials, equipment rental and transportation, plus the percentage fee thereof stipulated herein to cover all other charges for, or in connection with, such work, including all charges for layout, supervision (field and home office), small tools and related items, general expenses, overhead, and profit. Construction Contractor shall not include any

markup for the costs of product and/or equipment purchased directly by Owner and furnished to Construction Contractor.

(b) Credit for deleted work not covered by agreed upon "unit prices" shall be determined as follows:

(i) For deleted work to be performed by subcontractors, Owner shall receive a lump-sum credit equal to the net credit to Construction Contractor as itemized by subcontractors for labor, materials, equipment, transportation, and taxes, plus the percentage fee thereof stipulated herein covering such items as normal charges for layout, supervision (field and home office), general expenses, overhead and profit of Construction Contractor and subcontractors.

(ii) For deleted work to be performed by Construction Contractor's own forces, Owner shall receive a lump-sum credit equal to the net estimated saving to Construction Contractor on account of the deleted work for labor, material, equipment, transportation, and taxes, plus the percentage fee thereof stipulated herein covering such items as normal charges for layout, supervision (field and home office), general expenses, overhead, and profit.

10.03.02 Time and Materials Method. If Owner elects to direct that extra work be performed on a time and material basis, percentages as stipulated below will be allowed in addition to actual "on site" costs of such extra work. Percentages shall be applied to approved invoiced costs of materials and to approved payrolls as follows: Requests for payment for work performed on a time and material basis shall be submitted within ten (10) days after completion of such work. When work on a time and material basis continues for more than two weeks, Construction Contractor shall submit a weekly report to Owner's Project Manager apprising such Project Manager of work performed during the preceding week to include: material quantities, labor time, equipment rental time and other operating cost information.

#### 10.03.03 Computations of Percentages for Combined Overhead and Profit.

(a) The percentages set forth on Exhibit E to the Agreement shall be applied for combined overhead and profit, as appropriate, unless otherwise stated, and are maximums that may be added to approved costs. Those percentages set forth on Exhibit E for change orders are Construction Contractor's sole payment of fees and general conditions items related to such Change Orders and any Construction Contractor Fee or percentage for general conditions items set forth in Section 3 of the Agreement shall not apply to any such Change Order. Construction Contractor shall not include any markup for the costs of product and/or equipment purchased directly by Owner and furnished to Construction Contractor.

(b) Construction Contractor agrees that these percentages are fair, and that they include adequate compensation for supervision, overhead, bond, profit and all other general expense. No percentage fee or other markup of any kind shall be applicable to any premium portion of wages, taxes, or related benefits. If Owner issues a field order or bulletin for any addition or deletion as to which unit prices (pursuant to Section 10.04) are applicable, the Contract Sum shall be adjusted by the amount of such unit prices in lieu of the negotiated sum here in above mentioned, and the percentage fee markup shall not be applied thereto.

10.04 The rates and unit prices set forth on Exhibit F to the Agreement shall apply to all change orders involving the labor or materials set forth on Exhibit F to the Agreement which Owner notifies Construction Contractor in writing will be applicable to a particular change order and are all inclusive of all expenses and costs related to such rates and unit prices.

10.05 Owner, without invalidating the Contract, may order changes in the Work prior to the execution of an appropriate change order hereunder, and, upon receipt of a written order from Owner, Construction Contractor shall proceed with the Work and incorporate such change into the Work pending execution of an appropriate change order as set forth in this Article 10; provided, however, that if Owner and Construction Contractor are unable to agree upon a different price for such Change Order within 30 days, then the Construction Contractor shall be entitled to a Change Order based upon the time and materials method set forth in Section 10.03.02 above.

10.06 If Construction Contractor claims that additional cost is involved because of (i) any order by Owner to stop the Work pursuant to Section 2.04 where Construction Contractor was not at fault, (ii) failure of payment by Owner to Construction Contractor of non-disputed amounts owed to Construction Contractor, or (iii) any other provision herein under which Construction Contractor is entitled to claim additional cost, Construction Contractor shall make such claim as provided in this Section. If Construction Contractor believes it is entitled to make a claim for an increase in the Contract Sum, Construction Contractor shall give Owner written notice thereof within 20 days after the occurrence of the event giving rise to such claim. This notice shall be given before proceeding to execute the Work, except in an emergency endangering life or property, in which case Construction Contractor shall proceed in accordance with Section 9.03. No such claim shall be valid unless made as required in this Section; however, the mere presentation of such a claim shall not establish the validity thereof. Any change in the Contract Sum resulting from such a claim which is valid shall be authorized by change order.

#### ARTICLE 11 UNCOVERING AND CORRECTION OF WORK

11.01 If any portion of the Work is improperly covered, such Work must, if required in writing by Owner, be uncovered for Owner's observation and shall be replaced at Construction Contractor's expense.

11.02 (a) Construction Contractor shall promptly repair or, if necessary in Owner's opinion, remove all Work rejected by Owner as defective or as failing to conform to the Contract Documents, whether such Work is observed before or after final completion and whether or not it is fabricated, installed or completed. Construction Contractor shall bear all costs of correcting such rejected Work and shall be responsible for time lost correcting such rejected Work. Construction Contractor shall bear the cost of making good all work of Owner or separate contractors destroyed or damaged by such repair or removal.

(b) If, within one year after the date of final completion of the Work or within one year after acceptance by Owner of designated equipment or within such longer period of time as may be prescribed by law or by the terms of any applicable special warranty required by the Contract Documents, any of the Work is found to be defective or not in accordance with the Contract Documents, Construction Contractor shall correct it promptly after receipt of a written notice from Owner to do so unless Owner has previously given Construction Contractor a written acceptance of such condition. This obligation shall survive termination of the Contract.

(c) Within sixty (60) days after the discovery of defective or nonconforming Work, Owner may choose to accept same instead of requiring its removal and correction by giving written notice thereof to Construction Contractor, in which case a change order will be issued to reflect a reduction in the Contract Sum where appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

11.03 Construction Contractor acknowledges that, in performing its obligations under this Article 11, its access to the Building may be limited by Owner's operations, if any, on a 24-hour-per-day, seven-days-per-week basis and by Owner's special security procedures, if any, and agrees that such limitations shall not relieve Construction Contractor of such obligations or otherwise modify or limit such obligations.

#### ARTICLE 12 TERMINATION

12.01 If the Work is stopped in whole or in substantial part for a period of 180 days under an order of any court or other public authority having jurisdiction or as a result of an act of government, such as a declaration of a national emergency making materials unavailable, through no act or fault of Construction Contractor or any subcontractor or any of their employees or agents, or if the Work in whole or in substantial part is stopped for a period of 60 days by Construction Contractor because Owner has not made payment of undisputed amounts therefor (other than as permitted by the Contract Documents), then Construction Contractor may, upon 30 additional days' written notice to Owner, terminate the Contract Documents and recover from Owner payment for all Work properly executed and for any proven loss sustained upon any materials, equipment, tools, construction equipment and machinery together with reasonable out-of-pocket costs incurred by Construction Contractor in shutting down the Work; provided, however, that Construction Contractor shall in no event be entitled to recover for lost profits or consequential or other damages.

12.02 (a) Owner may terminate the Contract Documents at any time without cause and without prior notice to Construction Contractor, and in such event, Owner will pay Construction Contractor for that portion of the Contract Sum, less the aggregate of previous payments, allocable to the Work completed as of the date of termination. Owner will not be responsible to reimburse Construction Contractor for any continuing contractual commitment to subcontractors or for penalties or damages for canceling such contractual commitments inasmuch as Construction Contractor shall make all subcontracts and other commitments subject to this provision. In the event of termination by Owner, Owner may require Construction Contractor promptly to assign to it all or some subcontracts, construction, plant, materials, tools, equipment, appliances, rental agreements, and any other commitments which Owner in its sole discretion chooses to take by assignment, and in such event, Construction Contractor shall promptly execute and deliver to Owner written assignment of the same. Owner shall reimburse Construction Contractor for taking possession and use of any materials, equipment, tools, construction equipment and machinery on the Site as set forth in Section 12.02(b)(i) and (ii) below.

(b) If Construction Contractor is adjudged as bankrupt, or if Construction Contractor makes a general assignment for the benefit of Construction Contractor's creditors, or if a receiver is appointed on account of Construction Contractor's insolvency, or if any provision of the bankruptcy law is invoked by or against Construction Contractor, or if Construction Contractor persistently or repeatedly refuses or fails (except in cases for which extension of contract time is provided) to supply enough properly skilled workmen or proper materials, or if Construction Contractor fails to make proper payment for materials or labor, or disregards any Government Requirements, or if Construction Contractor fails to perform and prosecute the Work properly, or fails to complete the Work entirely on or before any date established for partial or final completion, or a labor dispute causes substantial disruptions or delays, through work stoppages, picketing, jurisdictional disputes or similar actions or failures to act by subcontractors or, without limitation, otherwise fails to perform any provisions of the Contract Documents, then notwithstanding any other rights or remedies granted Owner under the Contract Documents, Owner may, without prejudice to any other right or remedy (i) terminate the employment of Construction Contractor and take possession of the Site and of all materials, equipment, tools, construction equipment and machinery thereon owned by Construction Contractor (to the extent any of same have not been paid for by Owner, Owner shall lease same from Construction Contractor at a rate equal to 80% of the standard book rate as reflected in the Rental Rate Blue Book for Construction, latest edition), (ii) use Construction Contractor's equipment for which Owner was paying a leasing fee so long as Owner continues to pay such leasing fee, and/or (iii) may finish the Work by whatever method Owner may deem expedient. In such case, Construction Contractor shall not be entitled to receive any further payment until the Work is finished. If the unpaid balance of the Contract Sum plus leasing fees referred to in (ii) above shall exceed: (1) the expense of completing the Work including compensation for additional managerial and administrative services, plus (2) Owner's losses and damages because of Construction Contractor's default, such excess shall be paid to Construction Contractor. If such expense plus Owner's losses and damages shall exceed such unpaid balance, Construction Contractor shall pay the difference to Owner promptly on demand and Owner may resort to any other rights or remedies Owner may have by law or under the Contract Documents.

LIST OF SCHEDULES

TO

GENERAL CONDITIONS TO SINGLE PROJECT CONSTRUCTION SERVICES AGREEMENT

SCHEDULE A	Owner Controlled Insurance Program
<del>SCHEDULE 8.01</del>	<del>General Conditions Items</del> (intentionally omitted)
SCHEDULE 8.02	Application for Payment Form
SCHEDULE 8.06	Certificate of Substantial Completion
SCHEDULE 10.02	Change Order Form

SCHEDULE A  
INSURANCE  
OWNER CONTROLLED INSURANCE PROGRAM  
Bank One - Delaware Projects

A. Owner Controlled Insurance Program

The Owner has elected to implement an Owner Controlled Insurance Program (OCIP) that will provide Workers' Compensation, Employer's Liability, General Liability and Excess Liability Insurance for the Construction Manager, Electrical Trade Manager and all eligible Contractors of every tier providing direct labor on the Project. The Owner agrees to pay all premium associated with the OCIP including deductibles or self-insured retention unless otherwise stated in the Contract Documents.

The Owner will also provide Builder's Risk coverage as outlined in Section G (4).

Eligible Contractors include all contractors providing direct labor on the project site (see definition of ineligible contractors below). Temporary labor services and leasing companies that include direct labor on the project site are to be treated as a contractor.

B. Applicability of the OCIP

The following types of contractors (hereinafter called ineligible contractors) shall not be eligible for coverage in the OCIP: consultants, suppliers, vendors, materials dealers, guard services, janitorial services, truckers (including trucking to the project where delivery is the only scope of work performed), and other temporary project services. In addition to the above, the Owner may choose not to include in the OCIP contractors of any tier whose contract, on a single basis, does not exceed \$10,000 in value. Ineligible contractors shall be required to maintain their own insurance of the types and with the limits as set forth in Section L, at their own expense, and shall promptly furnish the Owner, or its designated representative, certificates of insurance giving evidence that all required insurance is in force.

C. Insurance Cost Identification

The Construction Manager and all eligible Contractors shall identify the cost of insurance on the Project, Form 2. The Construction Manager and all Contractors of every tier agree to identify all costs associated with the cost of insurance for all work, including but not limited to insurance premiums, expected losses within any retention or deductible program (loss rate), claims handling charges, service and broker fees, overhead and profit, using Form 2 (Insurance Cost Identification Worksheet).

By completing and submitting this insurance cost information, including supporting documents to the Owner, Construction Manager and Contractors warrant that all cost for insurance as described in this paragraph have been correctly identified. Coverage and limit requirements are:

(1) Workers' Compensation and Employer's Liability Insurance:

WORKERS' COMPENSATION INSURANCE WITH Statutory Benefits as provided by state statute; and EMPLOYER'S LIABILITY LIMITS:

- (a) \$500,000 Bodily Injury each Accident
- (b) \$500,000 Bodily Injury by Disease - Policy Limit
- (c) \$500,000 Bodily Injury by Disease - Each Employee

## (2) Commercial General Liability and Insurance:

- (a) Bodily Injury, Property Damage and General Aggregate limits as required in Article V.
- (b) The limits required in Article V. can be satisfied by a combination of general and umbrella liability policies.
- (c) Coverage should include but not be limited to the following supplementary coverage:
  - (i) Contractual Liability to cover liability assumed under this agreement,
  - (ii) Product and Completed Operations Liability Insurance,
  - (iii) Broad Form Property Damage Liability Insurance,
  - (iv) Explosion, collapse and underground hazards (deletion of the X,C,U exclusions) if such exposure exist, and
  - (v) Independent Contractors.

Construction Manager and all eligible Contractors will provide Owner, or its designated Program Administrator and/or insurance carrier, with supporting documentation to verify the workers' compensation, general liability and umbrella liability rates to be used throughout the project to determine the Construction Manager's and Contractors' insurance credits. The insurance rates agreed to prior to execution of this agreement will be the rates used to calculate the final insurance credit for Construction Manager and each eligible Contractor of every tier. Any eligible Contractor of any tier that does not enroll in the OCIP will have a minimum 6% of their contract amount automatically deducted for their insurance credit.

Construction Manager and all eligible Contractors will be required to provide copies of their current declaration pages and premium rate pages for their workers' compensation, general liability and umbrella liability policies to verify the rates they are utilizing on the Insurance Cost Identification Worksheet. If eligible Contractors have insurance policies with deductibles or other loss sensitive programs, they must provide copies of the past five years audited workers' compensation payrolls, currently dated claim loss runs for those same five years for their workers compensation and general liability policies and copies of their deductible or program agreement with their insurance carrier to support the calculation of the loss rate and fixed cost (premium) rate being utilized. If eligible Contractor does not provide this information, the rates for the insurance credit will be calculated using one of the following two methods: 1) the OCIP carrier's manual rates for workers' compensation and general liability insurance or 2) the loss sensitive rates at maximum cost (the fixed cost plus the aggregate loss cost plus claims handling charges plus insurance agent/broker fee) for general liability and workers' compensation insurance.

It is understood and agreed, Construction Manager's and Contractors' insurance cost identified on their Insurance Cost Identification Worksheet, Form 2, is an initial estimate only. The final insurance cost will be subject to final audited payrolls, and if applicable, contract amount and cost of subcontracted work, multiplied by the appropriate insurance rates as agreed to prior to the start of the work. Because the OCIP is subject to a minimum premium, the final insurance credits for Construction Manager and each eligible Contractor of every tier will be subject to their minimum insurance credit and are only subject to an additional deductive change order/charge, not a credit/return. The contract award will be based on the total estimated cost of work including insurance costs. An initial deductive change order will be processed to transfer the insurance cost into the project insurance program. During the term of the contract, including extended periods thereof, the Owner shall have the right to recover all costs for insurance as described in Section C (1), (2), and (3) and Section D that are in addition to those initially identified in the initial deductive change order. The Owner shall have the right to recover these additional costs through deductive change orders.

Contractors of every tier shall complete and submit the Insurance Cost Identification Worksheet, Form 2 as part of their bid to Construction Manager. Construction Manager shall promptly provide copies of such Form 2's to Owner.

**D. Change Order Pricing**

Construction Manager shall price, and shall require that all eligible Contractors price change order pricing equal to or greater than fifty thousand dollars (\$50,000) to include the cost to provide insurance as specified in Section C using Construction Manager's and Contractors' previously agreed upon rates, and shall identify the amount of insurance contained in the change order proposal using the Supplemental Insurance Information Form, Form 3.

The Construction Manager's and eligible Contractors' price shall be adjusted by removing the cost of insurance as identified on Form 3. The Owner shall have the right to recover these additional costs through deductive change orders.

**E. Responsibility for Contractors**

The Construction Manager and its Contractors shall require each of their eligible subcontractors to identify the cost for the coverage associated with the work performed for or on their behalf as outlined in this agreement using the methods and documents described herein. Any eligible Contractor not enrolled in the OCIP will automatically have a minimum of 6% of their contract amount deducted from their contract for their insurance credit.

The Contractor shall include all of the provisions of this agreement in every subcontract so that such provisions will be binding upon each of its subcontractors.

**F. Audit and Recovery of "Insurance Cost"**

For insurance purposes, Construction Manager and Contractors of every tier agree, and shall require all tiers of subcontractors to agree, to keep and maintain accurate and classified records of its payroll for operations at the project site. Construction Manager and Contractors further agree, and will require all tiers of subcontractors to agree, to furnish to the Program Administrator (the insurance company and Willis) full and accurate payroll data and information in accordance with the requirements of the OCIP Project Insurance Manual, incorporated herein by this reference. Construction Manager and all Contractors shall permit the Owner or its representative to examine and/or audit its relevant books and records. Construction Manager and Contractors shall also provide any additional relevant information to Construction Manager or its appointed representatives as may be required. During the term of the Contractor's contract including extended periods thereof, the Construction Manager shall have the right to adjust the contract price to reflect the cost of the Contractors' insurance costs had the Owner not implemented an OCIP.

**G. Sponsor Provided Coverage**

The Owner, at its sole expense, has implemented an Owner Controlled Insurance Program (OCIP) to furnish certain insurance coverage with respects to on-site activities. All policies shall be issued by companies rated A- IX or higher in the most recent A.M. Best ratings. The OCIP will be for the benefit of the Owner, Construction Manager and its eligible Contractors of all tiers (unless specifically excluded) who have on-site employees. Such coverage applies only to work performed under this contract at the Project Site. Construction Manager and eligible Contractors must provide their own insurance for off-site activities that complies with Section L.

The Owner, at its sole expense, will provide and maintain in force the types of insurance listed in subparagraphs (1) through (4) below as a part of the OCIP for Construction Manager and all enrolled/eligible Contractors. Construction Manager and all enrolled Contractors will each receive their own workers' compensation policies and Construction Manager and all enrolled Contractors will be named as Additional Named Insureds on the master commercial general liability and excess liability policies. Construction Manager and all enrolled Contractors will receive certificates of insurance evidencing that they are Additional Named Insureds on the master commercial general liability and excess liability policies. Construction Manager and Contractors enrolled in the OCIP agree that the policy limits of liability,
